Product Fair Value Outcome – Methodology

Gallagher has completed Fair Value Assessment work on products we co-manufacture. This is based on groupings of products which may be similar in features and are intended to be distributed to similar target markets.

This Product Fair Value Outcome Statement is not intended to replicate our Fair Value Assessments but sets out the approach taken and the outcome of the assessment.

Distributor Remuneration

Gallagher agrees commission rates with each distributor and as part of the fair value assessment process has requested details of any additional fees that may be added in the distribution chain. The fee details received have been analysed and if Gallagher considers these could impact the value of the product this would be raised directly with distributors.

All distributors should be able to:

- Confirm annually that the commissions and fees they charge are reasonable relative to the service(s) they provide and the total cost of the product to the customer; and
- Justify that commissions and fees they charge are fair and support the intended value of the product.

How Gallagher Assesses Value

Gallagher's product governance and oversight process requires a full review of all product groups at least annually to determine if the product offers fair value to the customer.

These reviews consider the following areas:

Target market	<ul style="list-style-type: none"> • Target market reviewed to ensure the product meets the needs of the customer and will continue to do so for the life of the product • Identify the impact on vulnerable customers where applicable
Distribution strategy	<ul style="list-style-type: none"> • Appropriateness of the distribution channel, services offered and remuneration • Remuneration does not negatively impact the overall value offered by the product
Market assessment	<ul style="list-style-type: none"> • Market scrutiny to ensure the product aligns with current market trends
Product design/lifecycle	<ul style="list-style-type: none"> • Pricing • Regulatory requirements • Fees and charges • Product documentation • Performance of the product • Product changes

Customer journey	<ul style="list-style-type: none"> • Quality Assurance • Feedback from distribution
Claims	<ul style="list-style-type: none"> • Frequency and trends • Loss ratio trends
